

WE ARE HIRING!

QUALITY ASSURANCE

MINDSET TO **BREAK SYSTEMS** | NEVER GIVE UP

USER-ORIENTATED THINKING

ORGANIZING DEPLOYMENT PROCESS

MODERATE LEVEL OF **PERFECTIONISM**

CONSCIENTIOUS, ACCURATE AND STRUCTURED

FLUENT IN ENGLISH

GERMAN IS A PLUS BUT NOT NECESSARY

WE NEED YOU

to make sure our clients just receive **well-tested** and perfectly **working systems** and to minimize the number of support-requests. Your job would also be convincing our developers to do **proper testing** themselves before shipping the new code to you.

WE ARE

a SaaS company and are developing a **global mobility platform** which makes mobility more efficient, consists of countless **modular features** and is used by thousands of people all over the world already.

YOUR TASKS

- Testing of new features, improvements and fixes by the developers
- **Exploratory testing** of new releases and production deployments
- Designing the **test scenarios & protocol**
- **Coordinating** and managing the distributed testing sessions the team does
- **Teaching developers** how to do good testing and ensure high quality of work before pushing to QA
- **Learn coding** by organizing our deployment process

♥ WE OFFER YOU

Cutting edge **technology, innovation, flexibility, challenging** tasks, a **motivated** and **very international** team, **startup** atmosphere in a **cool office** and great possibilities for **growth** – personally and financially!

WE ARE LOOKING FORWARD TO RECEIVE YOUR CV!
